

# Nilfisk Battery Burnisher

Nilfisk UHB 51-1500

# A new design with more features

Two port dust bag is easy to access for bag changes

Optional vacuum available for active dust control

The new Nilfisk UHB 51-1500 represents the very latest and most technically advanced means of restoring and maintaining a high gloss shine on floors.

The many improved features include easier-than-ever operation, added safety considerations, passive dust control and better ergonomics. The biggest difference, however, between the UHB 51-1500 and its competitors is performance. For medium/large hard floors, nothing compares to this outstanding and truly well designed burnisher.

With typical Nilfisk attention to detail, the UHB 51-1500 has the right handling, accurate pad pressure, and superb dust control to produce a professional finish with value-adding productivity gains.

- Self-regulating pad pressure eliminates the need for adjustments & reduces operator errors.
- Simple controls and low profile design make operating the unit easier and safer.
- The burnishing deck automatically lifts when the motor is turned off for better floor protection.
- Excellent active dust control with HEPA filtration optional for dust sensitive areas
- On-board battery charger saves downtime and adds convenience

## Technical specifications

Description	Unit	UHB 51-1500
Rated power	W	1500
Protection class/ IP Protection		IPX4
Voltage	V	36
Sound pressure level at 1,5 m	dB(A)	68
Polishing rate	m <sup>2</sup> /h	2230
Pad diameter	mm	510
Pad pressure	g/cm <sup>2</sup>	AUTOMATIC
Pad speed	rpm	1500
Length x width x height	cm	136x56x106
Weight	kg	88
Operating weight	kg	210
